**AUTISM CONNECTIONS**

In the spring of 2017, building renovations were completed at our Royal Oak location. With added space we have experienced growth as expected. We increased applied behavior analysis (ABA) services for young children as well as provided more opportunities for older children and adolescents – meeting their needs as they grow, learn and discover interests. And, with the increase in space and hiring of qualified staff, we are now serving more youth who need greater supports due to behavioral challenges – many who have not been able to secure ABA therapy services in other clinics.

**CHILD AND FAMILY SERVICES**

Last year was a year of growth for our Building Community Partner (BCP) program. We expanded this family preservation service into our fifth county – Washtenaw. The BCP program supports families involved or at-risk of becoming involved in the Child Welfare System, by providing education, resources, training and peer mentoring to help families succeed.

Child and Family Services, in coordination with Behavioral Health Services, also added telepsychiatry and outpatient counseling to our Wayne County regional office. As part of our continuum of care, children and their families in our child welfare programs which include, foster care and adoption, are now able to receive much needed mental health services at the same location of their other services, without systematic barriers or red-tape.

**BEHAVIORAL HEALTH SERVICES**

Formerly Mental Health Services.

Dr. Stephanie Riolo joined the Judson Center family serving as Medical Director in our Macomb County regional office for Behavioral Health Services. With over 30 years’ experience in clinical and psychiatric services, Dr. Riolo has brought a level of expertise with the ability to help streamline our continuum of care model throughout our regional offices that serve children, adults and families in Autism Connections, Child and Family Services as well as the community-at-large who are in need of mental health and psychiatric services. Under her guidance, we have and will continue to grow our programs, as well as increase our care in the communities we serve.

**DISABILITY SERVICES**

Our Vocational Services program continues to provide support in obtaining competitive and integrated employment throughout our communities. To help accomplish this, we have expanded our Soft Skills Training Program to area high schools within Oakland County as part of Michigan Rehabilitation Services’ (MRS) initiative to accelerate pre-employment service offerings to youth and young adults with disabilities. This program was the precursor to 20 paid Summer Work Experiences, arranged and supported by our Vocational staff. Additionally, select staff have been trained in best practices for customizing employment for persons with disabilities related to a collaboration with Community Mental Health and MRS.
Somebody should do something about that.

Throughout our lives, we have heard others say that phrase when they see or hear about a need in our community.

There are always people, the somebodies referenced above, who wait for action to happen by others. Then there are the others, who are the somebodies that don’t hesitate, they take action and help for the greater good.

Judson Center and our affiliate Child Safe Michigan is made up of the latter, a Community of Caring that encompasses thousands of somebodies who do not wait for others to make a difference, they, YOU - are the difference.

Throughout our Judson Center family - from experienced and compassionate staff to engaged and skilled leadership, we are very privileged to serve a community that serves us as well.

As we reflect not only on last year, but on our many years of history, we also know the importance of being present in our community. That is an admirable attribute of all our supporters, friends and partners. It is also a part of Judson Center’s core foundation. To act, help and support those who need it the most, our most vulnerable citizens.

That is what being a somebody does. They are in the moment and do something.

What began simply as an orphanage in 1924, evolved into an agency that has met the needs of the community. Through our four key programs, Autism Connections, Behavioral Health Services (formerly Mental Health Services), Child and Family Services and Disability Services, we never wavered to be the somebody to help.

Never has this been more relevant than this past year with nearly 9,000 lives impacted by our services. With the support of 1,500 donors, 400 volunteers and collaborations with many businesses, organizations and human service partners throughout the state for both Judson Center and Child Safe Michigan, we know the work we do is relevant, life-changing and vital, and we could not do it without you.

You are the somebody and for that we thank you!

Best,
