The Macomb Health Equity Council

The Macomb Health Equity Council was established in August 2022 as part of a statewide initiative, funded by the Michigan Department of Health and Human Services (MDHHS) Office of Equity and Minority Health (OEMH) in partnership with the Michigan Public Health Institute (MPHI), designed to help combat health disparities in underserved and rural areas across the state.

One of 11 regional health advisory councils, the **Macomb Health Equity Council coordinates activities that promote health equity throughout Macomb County, particularly for racial and ethnic minority communities for whom health disparities have been magnified by the COVID-19 pandemic.** They also seek to address regional social determinants of health needs and improve access to quality health care. The Judson Center serves as the backbone organization to support MHEC's formation and implementation of its community-driven goals.

GOALS

The goals of the Macomb Health Equity Council are:

- A reduction in COVID-19 disparities in impacted communities specifically among Michigan's five racial ethnic minority populations:
 - African Americans;
 - American Indians/Alaska Natives;
 - Arab and Chaldean Americans;
 - Asian Americans and Pacific Islanders; and
 - Hispanics/Latinos.
- Planned reduction of community identified priority risk factors.
- Development and implementation of practices and policies to promote equity and reduce health disparities.
- Equitable distribution and efficient use of resources to support affected communities including organizations and community leaders – both existing and emerging.
- Community-driven decision-making and priority setting.

Within the context of these larger goals, the MHEC is prioritizing work aimed at enhancing the equitable distribution and efficient use of resources and community-driven decision-making. Specifically, MHEC will distribute mini-grants for projects that align with its goals and can be accomplished by April 30, 2023.

MEMBERSHIP

The MHEC membership consists of 6 community members and 10 organizational members, including:

- ACCESS (Arab Community Center for Economic and Social Services)
- CARE of Southeastern Michigan
- Care Plus, Inc.
